FUSED JUMPER SET

CAT. 204

ISSUE SOLVED

TESCO understands that every meterman is not created equally. The same goes for their tools and testing equipment. That's why **TESCO** is offering **Fused Jumper Sets** in various combinations, based on your preferences. Customization includes color, test clip style, and cable length. And, for those who really don't want to go through the process of selecting all of the pieces, we've put together a standard **Fused Jumper Set (Catalog No. 204)** just for you.

TESCO Fused Jumper Set (Catalog No. 204) is primarily used to jump potential from phase-A to phase-B and to phase-C on the meter side of the safety test switch.

STANDARD SET

1. Fused Test Lead (Qty 1) – 4mm, Fused, Red, 1000V, Cat IV, 8A max, 6.875" long (TESCO Part No. 8012-10707-22)
