

THE EASTERN SPECIALTY COMPANY

# METER DISCONNECT SLEEVES

CAT. 250

## USE

*TESCO's Cat. 250 Meter Disconnect Sleeves provide a fast and safe solution to leave a watt-hour meter in place but electronically disconnected from the socket.*

## FUNCTIONALITY

TESCO's Disconnect Sleeves provide a fast and safe solution to leave a watt-hour meter in place, but electrically disconnected from the socket. They act as insulating sheaths, temporarily disconnecting the blades of the meter from the receiving socket, when interruption of the electrical service is desired.

Our Meter Disconnect Sleeves are suitable for use on most meters, as they have sufficient width to accommodate blades of different sizes. They are also easily identifiable with two bright red stripes printed on the inside of the

**Note: TESCO Meter Disconnect Sleeves are intended for one-time use only.**

## FEATURES

- **Dielectric Strength:** 4500V
- **Dimensions:** 1.4" x 0.86" x 0.014" (W x H x D)
- **Wall Thickness:** 0.005"
- **Material:** Mylar®
- **Packaging:** 1 Gross (144 pieces)
