

# ISO 17025 Calibration Lab

THE EASTERN SPECIALTY COMPANY

**PJLA**  
Calibration

***ISO 17025 accreditation is the highest standard for calibration and testing laboratories worldwide.***

**ISO 17025** accreditation is the highest standard for calibration and testing laboratories worldwide. **TESCO** has demonstrated the technical proficiency and ability to produce precise and accurate test and calibration data to be among the best in the world!

Our metrology laboratory is accredited to **ISO/IEC 17025:2017** Electrical DC and Low Frequency calibrations and testing as well as NIST, NRC, and other (SI) traceable calibrations. The accredited scope applies to the general competency for conducting energy measurements as well as precision high current and high voltage transformers.

We can calibrate and repair ANY equipment of ANY vintage from ANY manufacturer. We can calibrate virtually every piece of shop or field equipment from **TESCO** or any other manufacturer including:

- Hand Held Multimeters and Field Test Equipment
- Field Meter Test Equipment
- Field and Transfer Standards
- Electric Meters
- Instrument Transformers

TESCO now offers an **ANSI/NCSL Z540.3:2016** standard calibration or an **ISO 17025:2017** calibration. We can test individual items or prepare a blanket program to calibrate all of your equipment. Call us for a quote today at **215-785-2338!**
