

THE EASTERN SPECIALTY COMPANY

PROBE & PICKUP

CAT. 1035

ISSUE SOLVED

TESCO's Cat. 1035 Probe & Pickup combines the best of communication between a PC and a meter with the reliability of TESCO's optical pulse pickup. No longer do you have to disconnect the pickup after doing a meter test to connect a probe when checking meter programming or disconnect switch operations to reconnect to a PC with this all-in-one device. Save time with less hassle.

ABOUT

COST EFFICIENT: TESCO's **Probe & Pickup** is an affordable way to test, program, and read meters.

DEPENDABLE: TESCO has supplied the utility industry for more than 100 years.

EASY TO USE: To operate, simply attach the device to a meter and plug the USB cable into your PC and the DB9 connector into your **TESCO NextGen** test board so communications with the meter vendor's software and meter testing can begin. Red and green LEDs indicate communications to and from the meter as well as meter pulses while doing meter testing.

SPECIFICATIONS and FEATURES

- Splitter style plug
- Robust and durable
- Portable and convenient
- USB interface for the Probe
- Two way communication to the meter
- Program and read meter settings
- DB9 interface for meter test pulses
- Perform meter testing

ACCESSORIES

TESCO offers these other products that pair well with the Cat. 1035:

- **TESCO Adapter Accessories (Cat. 1041-AC, Cat. 1041-CN, Cat. 1041-LG, and Cat. 1041-HY)** snap on the meter cover to create a metal interface for the 1039-WP to adhere to while you program the meter from your truck. They are compatible with GE/Aclara, Centron, Landis + Gyr, Itron, and Honeywell meters.
- **TESCO's Vacuum Assist (Cat. 1029)** uses a small, quiet USB or battery powered vacuum pump to securely hold pickups and probes in place.
