

THE EASTERN SPECIALTY COMPANY

## ISSUE SOLVED

Not all meter covers are created equal. You may need a metallic interface on your meter cover to properly use a meter probe or pickup. Well, TESCO has solved that issue with our **Optical Port Adapters!**

## ABOUT

**TESCO's Optical Port Adapters** (Cat. 1041-AC for GE/Aclara meters, Cat. 1041-CN for Centron meters, Cat. 1041-HY for Honeywell meters, and Cat. 1041-LG for Landis+Gyr meters) snap onto the meter cover to provide a metal interface attachment for various optical pickups and probes.

- Easily snaps on the meter cover
- Creates a metal interface for pickups and probes to work with the meter
- Durable construction
