

THE EASTERN SPECIALTY COMPANY

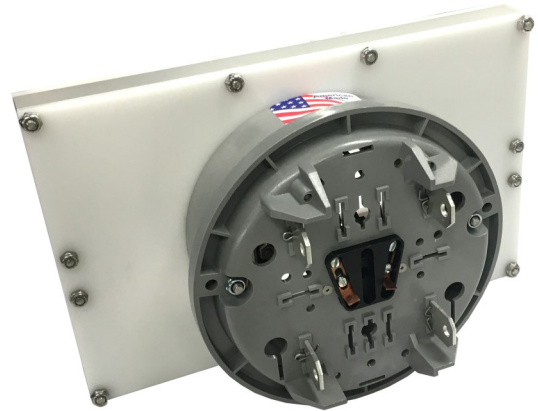

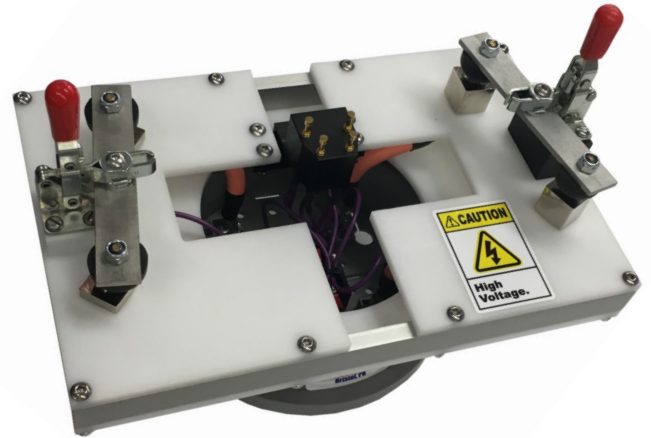

K-BASE TEST BOARD ADAPTER

CAT. 1180

USE

TESCO's K-Base Test Board Adapters allow quick, convenient testing of self-contained K-Base meters on test boards designed for socket type meters. The K-Base Test Board Adapters are designed for single phase (Cat. 1180-2) and Polyphase (Cat. 1180-4) meters.

The K-Base Test Board Adapters are easy-to-use and equipped with two clamps located on the front of the adapter, which will secure the meter to the base.

FEATURES

- Easy to use
- For use on mechanical or solid state meter
- Optional acrylic shield protects the user from any arcing that may occur (Cat. 1180-2-S and 1180-4-S)
