

THE EASTERN SPECIALTY COMPANY

VACUUM ASSIST

CAT. 1029

ISSUE SOLVED

*Frustrated by optical pickups and probes that do not stay attached to meter covers? **We have a solution!***

TESCO's Vacuum Assist actively generates a vacuum that attaches your TESCO optical pickup or probe to the meter and allows hands-free use for the meter tech. No more wasted time during testing or communication work when the pickup or probe falls off.

FUNCTIONALITY

TESCO's Vacuum Assist (Cat. 1029) uses a small, quiet USB or battery powered vacuum pump to securely hold pickups and probes in place.

The Vacuum Assist can be used with TESCO's Pickups: **Cat. 1037-STND** or **1037-DTS**.

OTHER ACCESSORIES

TESCO offers the following accessories to assist with your metering needs:

- 1037-STND Optical Pickup
- 1037-DTS Optical Pickup
- 1038 Optical Probe
- 1037-ITRN: lays flush on top-facing optical ports and allows for easy readability of the pulse pickup
- 1035 Combination Probe and Pickup

FEATURES

- Secure, robust, vacuum grip on flat meter covers
- Conveniently USB powered when USB port is available
- Compact, lightweight, rechargeable battery powered when used with Cat. 1037-STND or 1037-DTS
- Quiet function
- Allows meter tech hands-free flexibility of a pickup or probe to conduct testing
- On/off switch can be used with rubber gloves/PPE
- Carrying Case available
