Connector Link Assembly

The **Connector Link Assembly (Catalog No. 900-0114)** is a line-to-load bypass connector that works with K-Base Meters to temporarily supply a customer's power while the meter is removed from service. The conducting component is made from copper and is rated to 320A.

TESCO's vertical integration efforts have eliminated that lead time to almost nothing!

We can ship it out **IMMEDIATELY!**

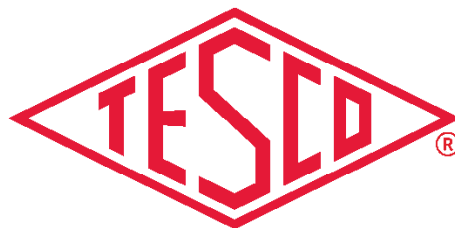

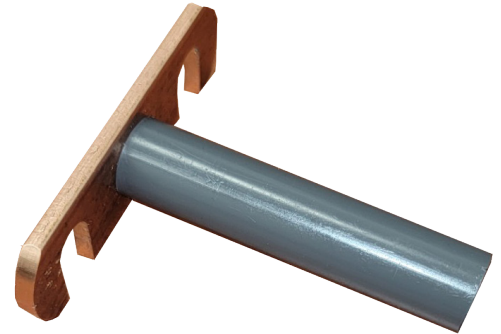

Specifications
