Connector Link Assembly

The **Connector Link Assembly (Catalog No. 900-0114)** is a line-to-load bypass connector that works with K-Base Meters. If you break or lose the connector for your K-Base Meter, you run the risk of having to wait 8 weeks or more for custom fabrication.

TESCO's vertical integration efforts have eliminated that lead time to almost nothing!

We can ship it out IMMEDIATELY!

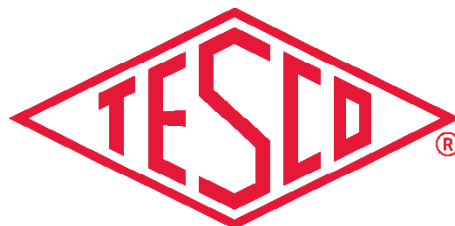

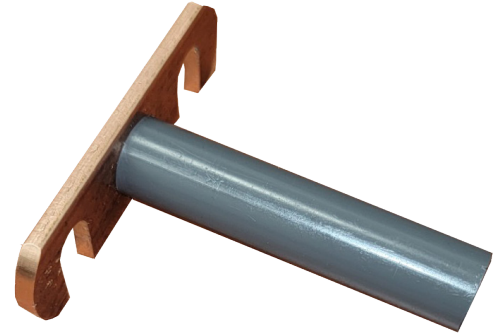

Specifications
