1035

Probe and Pickup

TESCO's Catalog No. 1035 Probe and Pickup combines the best of communication between a PC and a meter with the reliability of TESCO's optical pulse pickup. No longer do you have to disconnect the pickup after doing a meter test to connect a probe when checking meter programming or disconnect switch operations to reconnect to a PC with this all-in-one device. Save time with less hassle.

Cost Efficient: TESCO's Probe and Pickup is an affordable way to test, program, and read meters.

Dependable: TESCO has supplied the utility industry for more than 100 years.

Easy To Use: To operate, simply attach the device to a meter and plug the USB cable into your PC and the DB9 connector into your TESCO Next Gen test board so communications with the meter vendor's software and meter testing can begin. Red and green LEDs indicate communications to and from the meter as well as meter pulses while doing meter testing.

FEATURES

- Combines optical pickup and probe into one device
• Enables meter programming, reading, and pulse accuracy testing
• Red and green LEDs indicate power, communication, and pulse activity
• USB interface for two-way communication with PC

ABOUT TESCO

Since 1904, TESCO has been the trusted partner of electric utilities worldwide, delivering durable, precise, and innovative metering solutions designed for the real-world demands of the field and the laboratory. Our products are engineered and manufactured in the USA and backed by world-class technical expertise and support.

Reliable Results. Every Meter. Every Time.

- DB9 connector for use with TESCO NextGen test boards
• Eliminates the need to switch between probe and pickup
• Robust, durable construction for field and shop use
• Portable and easy to use
• Splitter-style plug design for added flexibility

ACCESSORIES

TESCO Optical Port Adapters (Catalog No. 1041-AC, 1041-CN, 1041-LG, and 1041-HY) (A) snap on the meter cover to create a metal interface for the 1039-WP to adhere to while you program the meter from your truck. They are compatible with GE/Aclara, Centron, Landis + Gyr, Itron, and Honeywell meters

TESCO's Vacuum Assist (Catalog No. 1029) (B) uses a small, quiet USB or battery powered vacuum pump to securely hold pickups and probes in place.
