1037-RIV1 & RIV3

Optical Pickup for Itron Gen™ 5 Riva™ Meter

Having trouble holding the pickup sensor in the new pulse output location? We have a solution!

TESCO's Cat. 1037-RIV is designed to hold the pick-up sensor directly above the output location on these new meters. It conforms to the shape of the new meter and secures easily to provide hands free operation. It automatically orients pick-up without need for manual adjustment.

TESCO's Cat. 1037-RIV Works with both the 2990 Desktop Meter Test Station and 6330 Meter Site Analyzer!

Features

- Automatically orients pick-up without need for manual adjustment
