Optical Probe

TESCO's Optical Probe provides easy, two-way communication between a PC and a meter.

Cost Efficient: TESCO's Optical Probe is an affordable way to program and read meters.

Dependable: TESCO has supplied the utility industry for more than 100 years.

Easy To Use: To operate, simply attach it to a meter and plug the USB cable into your PC and communications with the meter vendor's software can begin. Red and green LEDs indicate communications to and from the meter.

-
- Easy-to-use USB interface for meter programming and reading
- Compatible with most meter vendor software
- Smaller and lighter than other probes on the market
- Red and green LEDs indicate bidirectional data communication
- Robust and durable for field or bench use
- Portable and convenient for on-the-go testing
- Supports two-way meter communication
- Allows reading and programming of meter settings
- **Cable length:** 3 ft
