Why Choose TESCO?

Utilities and contractors need training solutions that prepare technicians for **real-world challenges** without unnecessary cost or complexity. The **TESCO Training Board 1500** gives you a practical, hands-on tool to simulate the most common meter installation errors — at a fraction of the cost of premium benches. And when you need more, **TESCO** can custom-build a training system that rivals or surpasses anything on the market.

Start with the Essentials

The **1500 Training Board** covers the most frequent and costly scenarios your technicians face:

- Inverted wiring
- Missing neutral
- Back-feed
- Ground faults
- Load switches
- Mis-wiring conditions

This focused approach delivers **faster ROI** by reducing costly mistakes, improving safety, and boosting technician confidence.

*Train Smarter.**Scale Further.*

Scale When You're Ready

Unlike fixed, high-priced alternatives, TESCO offers a scalable path:

- Add more sockets, forms, or panels over time
- Build full training labs tailored to your exact requirements
- Incorporate unique fault conditions or scenarios specific to your utility

If you can imagine it, TESCO can build it.

The TESCO Advantage

- **Cost-Effective:** Train smarter without overspending
- **Easy to Use:** Simple design means faster adoption and less maintenance
- **Customizable:** From one board to a full bench — your specs, your way
- **Made in the USA:** Built in Bristol, PA with fast lead times and responsive support

Compare the Value

<i>Powermetrix Training Benches</i>
Higher cost, full-featured from the start
Limited customization options
More complexity, higher maintenance

<i>TESCO Training Board 1500</i>
Affordable, practical, easy to use
Expandable and customizable to any need
Start small, scale big — only pay for what you need
