2100

Desktop Meter Station

TESCO's tried and true workhorse - the **2100 family** - is your solution for a cost-effective, extremely versatile piece of testing equipment. Thousands of 2100 family products have been providing essential evaluation functionality of numerous AMI and AMR deployments throughout North America.

Some new developments have been brought to the 2100 line and made part of their basic design. For example, all versions of Powerline Carrier Communications testing (PLC) can now be accommodated and none of them require any additional equipment to test. At TESCO, we are constantly learning and working on improving what we are doing. We want to be your resource for all of your metering needs.

Stock units of the 2100 are listed on the back page. Other options are available and made to order with the options below. If you want all of the features and options of every 2100, then consider upgrading to TESCO's 2199 Desktop Meter Qualification Board. Contact your Regional Manager for more information on TESCO's 2100 Desktop Meter Station.

The Perfect Unit for both the Work Bench, and the Engineer's Desk

Desktop Meter Station

SPECIFICATIONS:

Standard Meter Forms Available:

- All standard meter forms available

Voltage:

- Voltage Selectable: 120/208/240/277 VAC; 347, 480, and 600 VAC optional
- Custom voltages available

Dimensions:

- 12" x 10" x 11" (W x H x D)
- 12" x 10" x 13" (W x H x D Disconnect and built-in load models)

ABOUT TESCO

Since 1904, TESCO has been the trusted partner of electric utilities worldwide, delivering durable, precise, and innovative metering solutions designed for the real-world demands of the field and the laboratory. Our products are engineered and manufactured in the USA and backed by world-class technical expertise and support.

Reliable Results. Every Meter. Every Time.

DISCLAIMER

TESCO Metering reserves the right to modify product designs, specifications, features, and documentation at any time as part of our continuous improvement process. All information is provided "as is" and may change without prior notice. While TESCO® strives for accuracy, completeness, and technical reliability, customers should verify the latest product details before making purchasing or engineering decisions. For confirmation of current specifications or application suitability, please contact TESCO® directly.

2100 OPTIONS

- "C" Powerline Carrier Communication
- "D" Disconnect Operation
- "E" External Load p to 50 amps
- "I" Internal Load - 1/2 amp phantom
- "L" Built-in Load - 0, 5 and 30 amps (custom loads available)
- "R" Load Receptacle - 120 VAC receptacle
- "V" 480 VAC Meter Testing
- "Can" (Canadian) units can have additional voltage selections of 347 and 600
- Reverse - reverse current flow through the meter's current coils

2100 DESKSTOP METER STATIONS STOCK UNITS INCLUDE:

- 2100-E-I-Reverse
- 2100-E-I-D Reverse
- 2100-E-I-D- Reverse-Can
