

OPERATING INSTRUCTIONS

CAT. 275, 276 METER SOCKET BLANK-OUT COVERS

TESCO Meter Socket Blank-Out Covers are the perfect solution for meter boxes that require a meter to be removed from service while still maintaining a safe environment.

CAUTION

Accessing the meter socket may require assistance from an authorized technician, especially those enclosed in tamper-sealed meter boxes.

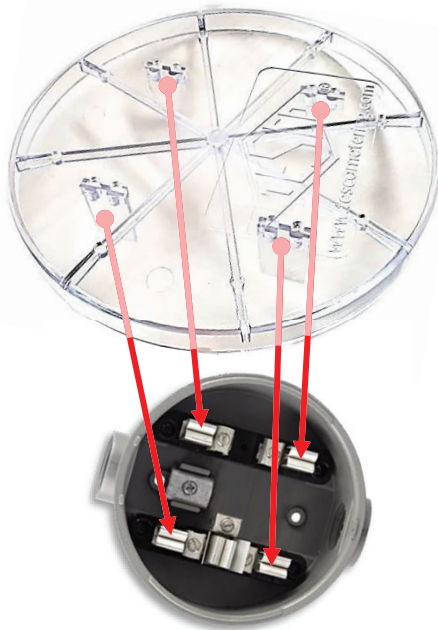

CAT. 275

(With blades)
Fits every socket for single phase electric meters including 320 A meter sockets.

(Gray version also shown)

INSTRUCTION

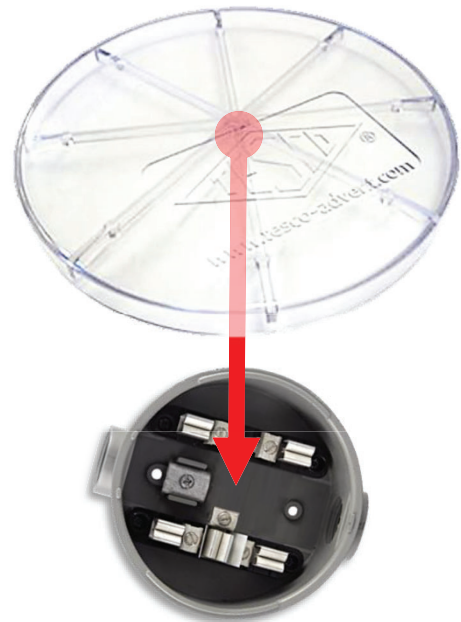

Insert blank-out cover into meter socket. Blank-out cover blades should be inserted to their designated socket jaws as indicated by the arrows.

CAT. 276

(Without blades)
Fits every socket for single phase electric meters but requires lock to keep it in place.

INSTRUCTION

Place blank-out cover on top of meter socket.

NOTE:

Setup may need additional locking (i.e. ring lock) to keep blank-out cover in place.
