Field Equipment

Catalog No.

621

Field Test Kit

Ideal for Testing Meters with an Open Link

PRODUCT INTRODUCTION

TESCO's Catalog No. 621, light-weight, 50 Amp Field Meter Test Kit with Power Factor, has been designed to reduce the weight of field test equipment to the lowest possible limit.

A 120/240/277/480 voltage change switch is provided with an "OFF" position so the load can be de-energized without the necessity of breaking connections when it is desired to make adjustments to the meter under test.

The artificial load and standard are permanently connected. The load's internal connections allow the load selector to automatically place the proper standard coil in the test circuit.

SPECIFICATIONS

- Dimensions: 13.5" x 9.25" x 13.5" (W x D x H)
• Weight: 25 lbs.
• Voltages: 120, 240, 277, 480 (custom voltages available)
• Current Range: Amperes
• Full Load: 5, 15, 50
• Light Load: 0.5, 1.5, 5
• Power Factor: 50%, 100%

ABOUT TESCO

Since 1904, TESCO has been the trusted partner of electric utilities worldwide, delivering durable, precise, and innovative metering solutions designed for the real-world demands of the field and the laboratory.
