Catalog No.

# GA-50

## Field Test Kit GA Series

The GA Series Field Meter Test Kit with Resistive Load has been designed to reduce the weight of field test equipment to the lowest possible limit. The carrying case is fabricated from durable powder-coated aluminum. The total weight of the meter test kit including leads and digital standard is approximately 25 lbs.

A 120/240/277/480 voltage change switch is provided with an "OFF" position so the load can be de-energized without the necessity of breaking connections when it is desired to make adjustments to the meter under test. The various load values are changed by manipulation of a durable rotary switch. The switching steps are arranged so the full load value is adjacent to its corresponding light load value. In order to change from full to light load, change the switch settings on the load. No connections need to be changed.

The artificial load and standard are permanently connected. The load's internal connections allow the load selector to automatically place the proper standard coil in the test circuit. As with all TESCO loads, these are rated for continuous duty.

### KEY FEATURES

- Lightweight and portable: only 25 lbs. including leads and standards
- Rotary switch for selecting voltage and current, no lead changes required

### ABOUT TESCO

Since 1904, TESCO has been the trusted partner of electric utilities worldwide, delivering durable, precise, and innovative metering solutions designed for the real-world demands of the field and the laboratory. Our products are engineered and manufactured in the USA and backed by world-class technical expertise and support.

Reliable Results. Every Meter. Every Time.

- Adjacent full/light load switch positions for fast transitions
- Permanently connected artificial load and Radian digital standard
- Continuous duty rated
- Powder-coated aluminum case with integrated cable storage

### SPECIFICATIONS

- **Dimensions:** 13.5" x 9.25" x 13.5" (W x D x H)
- **Weight:** 25 lbs.
- **Voltages:** 120, 240, 277, 480 (custom voltages available)
- **Current Range:** Amperes
- **Full Load:** 5, 10, 15, 30, 50
- **Light Load:** 0.5, 1, 1.5, 3, 5
