ISO 17025

Calibration Lab

METROLOGY LABORATORY ACCREDITED TO ISO AND ANSI STANDARDS.

ISO 17025 accreditation is the highest standard for calibration and testing laboratories worldwide. TESCO has demonstrated the technical proficiency and ability to produce precise and accurate test and calibration data to be among the best in the world!

Our metrology laboratory is accredited to ISO/IEC 7025:2017 Electrical DC and Low Frequency calibrations and testing as well as NIST, NRC, and other (SI) traceable calibrations. The accredited scope applies to the general competency for conducting energy measurements as well as precision high current and high voltage transformers.

We can calibrate any meter service equipment of any vintage from any manufacturer. We can also repair a variety of non-proprietary items from your Meter Service Department.

- Hand Held Multimeters and Field Test Equipment
- Field Meter Test Equipment
- Field and Transfer Standards
- Electric Meters
- Instrument Transformers

TESCO now offers an ANSI/NCSL Z540.3:2016 standard calibration or an ISO 17025:2017 calibration. We can test individual items or prepare a blanket program to calibrate all of your equipment. Call us for a quote today.
