Meter Rack

PRODUCT INTRODUCTION

The **TESCO 749 Meter Rack (Catalog No. 749)** is a storage solution designed for utilities and meter shops that manage large volumes of electric meters. Built from durable steel and engineered to withstand daily industrial use, the 749 Meter Rack eliminates clutter, optimizes space, and provides easy access to the meters technicians use most frequently.

For utilities storing thousands of meters, traditional cardboard packaging often becomes damaged, inefficient, or unsafe. The 749 Meter Rack provides a rugged, long-lasting alternative with a 60-meter capacity and a 300-lb load rating. With four industrial casters—two swivel and two rigid—the rack can be easily maneuvered around meter shops, warehouses, and maintenance areas.

AT-A-GLANCE SUMMARY

- **Meter Capacity:** 60 meters (30 per side)
- **Construction:** Galvanized Steel
- **Weight Capacity:** 300-lb
- **Width:** 31 inches with bumpers
- **Mobility:** Four casters (two swivel, two rigid)
- **Category:** Meter Shop Equipment

KEY BENEFITS

High-Capacity Storage

Holds up to 60 meters, allowing shops to consolidate inventory and reduce floor clutter.

Heavy-Duty Steel Construction

Built to withstand daily industrial use.

Improved Organization and Accessibility

Open, dual-sided design enables quick visual inventory checks and faster technician access.

Easy Mobility

Equipped with four industrial casters, the rack can be repositioned anywhere in the shop.

Long-Term Durability

Designed for utility environments where ruggedness, stability, and reliability are essential.

PRODUCT FEATURES

Dual-Sided Storage Layout

Holds 30 meters per side, enabling organized separation of meter types, conditions, or workflow stages.

Industrial-Grade Mobility

Two swivel and two rigid casters allow both directional stability and flexible movement.
